Introduction

Mouse Trail Plugin adds an interactive mouse trail effect to your WordPress site. This free version allows you to customize the color of the trail and activate/deactivate the trail effect.

Version: 1.0

Author: Fernando Miranda

Installation

From the WordPress Dashboard

1. **Download the Plugin:**
 - Search for "Mouse Trail Plugin" in the WordPress Plugin Directory.
 - Click [Install Now](#) and then [Activate](#).

Manual Installation

1. **Upload via FTP:**
 - Download the plugin zip file from [WordPress Plugin Directory].
 - Unzip the file and upload the extracted folder to [/wp-content/plugins/](#).
2. **Activate the Plugin:**
 - Go to [Plugins](#) in your WordPress dashboard.
 - Find [Mouse Trail Plugin](#) and click [Activate](#).

Usage

Once the plugin is activated, you can customize it from the settings page.

General Settings

1. **Navigate to Settings:**
 - Go to **Settings** > **Mouse Trail** in your WordPress dashboard.
2. **Customize Your Trail:**
 - **Trail Color:** Choose the color of the mouse trail.
 - **Enable Trail:** Toggle to enable or disable the trail effect.
3. **Save Settings:**
 - Click **Save Changes** to apply your settings.

Frequently Asked Questions (FAQs)

Q1: How do I reset the plugin settings to default?

A: Currently, the free version does not support resetting to default settings.

Q2: Can I use a gradient for the trail?

A: Gradient customization is available in the premium version of the plugin.
